WASTE MINIMIZATION STATEMENT FOR YEAR 2013

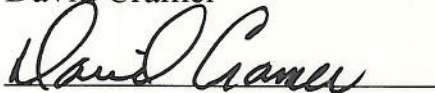

Cramer Plating had a spike of hazardous waste in the year of 2013.

The reason was because Cramer Plating started and completed a cleanup project of a former lagoon site that was on the property.

The site was cleaned of all contaminated materials and disposed by others after it was treated by others off site.

Also, Cramer Plating has made progress in the use of its new sludge dryer. The unit has helped to deviate the sludge, thereby reducing the volume of waste shipped off site.

David Cramer

A handwritten signature in cursive script, appearing to read "David Cramer", is written over a horizontal line.
